

ADVANCING ALTERNATIVES' ONLINE CONTROL PLATFORM

AdvanSync

ABOUT ADVANSYNC

AdvanSync is Advancing Alternatives' remote access and control platform, built and maintained by our own team of engineers. Monitor temperature, humidity, wind, and rain across every greenhouse — and control your equipment from any internet-connected device.

Real-Time Monitoring

Asset Control

Data Tracking

PRECISION CONTROL FOR THE PERFECT ENVIRONMENT

An online environmental control platform featuring real-time monitoring, asset control, setpoint adjustment, data tracking, and critical alarm notifications.

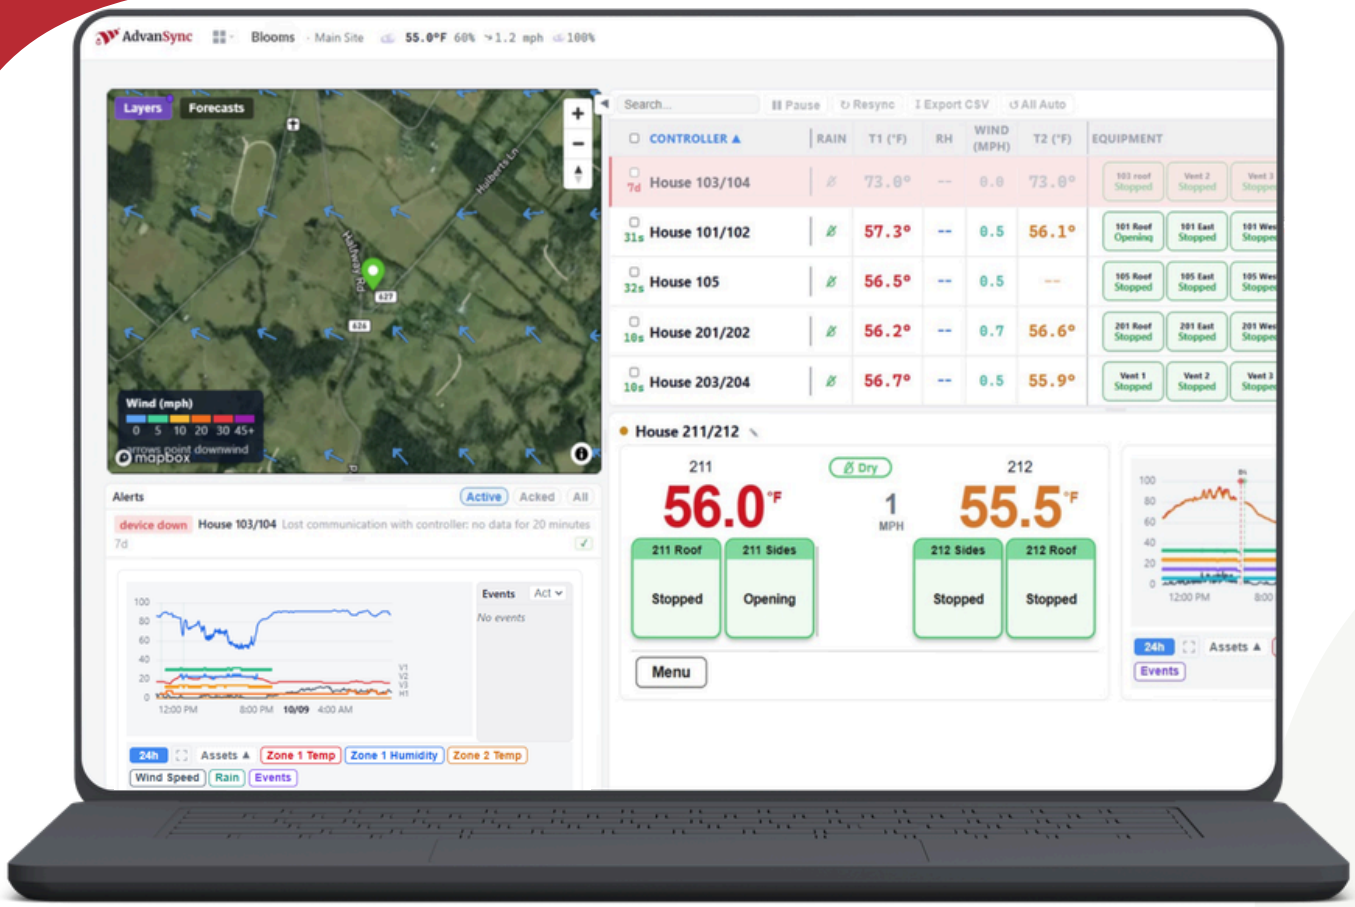

ACCESS FROM ANY INTERNET-CONNECTED DEVICE

YOUR GREENHOUSE. ANYWHERE YOU ARE.

YOUR WHOLE OPERATION AT A GLANCE

AdvanSync gives you a real-time view of every greenhouse on one screen — temperatures, humidity, wind, equipment status, and alerts, all in one place. Monitor from your desk or your phone, make adjustments on the fly, and never wonder what's happening in your houses again.

AN ONLINE INTERFACE TO ADVANCE YOUR CONTROL

41-AEGISTECP

43-LCM

WIRELESS INTERFACE

*One per controller required.

*Not to scale.

43-ASG*

INTERNET GATEWAY

*For up to 10 controllers.

*WiFi LCMs are available for greenhouses with WiFi in the greenhouse. For other sites with an internet router on-site but no WiFi in the greenhouse, an internet gateway will be needed.

FEATURES

- Intuitive user online interface allows for both a broad view of multiple zones and a narrow view of a single zone.
- Create custom alarms based on grower's preferred climate
- Build an employee hierarchy of staff, manager, and admin-level users with different permissions and alarm settings for each level
- Track data from every controller

ONLINE ACCESS

Simple, straightforward pricing — one plan, all features included.

Controllers	Monthly Price
1 controller	$20.00/mo.
Each additional controller	+$5.00/mo.

Example: A grower with 4 controllers pays $35.00 per month.
